CONFIDENTIAL — DRAFT — FOR DISCUSSION · NO SAFE EXECUTED · NO FUNDING RAISED (FOUNDER, 15 OCT 2026) · AMOUNT AND TERMS [TBD]

A prospective SAFE, term by term. What the Oct-13 deck proposed, what counsel would set, what is [TBD].

The Oct-13 deck and one-pager proposed a $60,000 SAFE with a three-month runway; the valuation cap, discount and most-favoured-nation terms were “set with counsel” and appear nowhere in the package. On 15 October 2026 the founder stated that **no SAFE has been executed** and no funding has been raised, and that the current amount, instrument and terms are **[TBD]** (ledger S-44). This page is therefore kept as a prospective instrument template — the skeleton of a term sheet with every unset term marked **[TBD]** — so that if a SAFE is chosen, counsel and the founder can fill it without re-deriving the rest. Nothing here is adopted, funded or an offer.

3 · CONTEXT THE INVESTOR WILL ASK ABOUT

Capital raised to date: approximately $10,000 including founder contributions, no outside debt or equity (founder's statement, 9 Oct 2026); on 15 Oct 2026 the founder stated that no funding has been raised and no SAFE executed — both dated statements stand, and the reconciliation basis is **[TBD] — reconciliation of the 9 Oct record with the 15 Oct statement**. A competition prize is not capital raised.

Prior SAFE — closed: the September checklist lists "Pre-seed SAFE(s) and terms — Have" (DD_Checklist!E10) and Headcount!P4 says a pre-seed SAFE covered runway; on 15 Oct 2026 the founder confirmed "correct no safe

has been done” — **no executed SAFE (founder attestation)**. The workbook entries are preserved in the pinned file as a dated conflict, not corrected.

Capital Readiness and the Seed Round: the Oct-13 materials say “not a seed round”; on 15 Oct 2026 the founder directed that this round may be combined with the Seed Round, whose amount and terms are **[TBD]** in 02_Seed_Round. Every term above is a draft for counsel; nothing is an offer.
