CONFIDENTIAL — FORECAST — FOR DISCUSSION

A three-month bridge to capital readiness. For close friends, family and angel groups — and it may combine with the Seed Round.

The October materials describe a $60,000 SAFE that stands up both entities, secures the IP position and funds the founder full-time, so that at the end of ninety days EnergyWave is an entity that can be invested in, with a filed IP position, a reviewed first module, written go / no-go criteria and a prepared next round. No SAFE has been executed and no outside funding has been raised. The current round — for close friends, family and angel investment groups — may be combined with the Seed Round; its amount, instrument and allocation are set with counsel at close. The October figures are shown below as the proposal they were.

THE INSTRUMENT

Term	Value
Amount	$60,000 on the October deck — a proposal; the current amount is set with counsel at close.
Instrument	SAFE (October deck); none executed to date; confirmed with counsel.
Runway	3 months, founder full-time (October deck).
Cap / discount / MFN	Set with counsel.
Issuer	EnergyWave, Inc. — Delaware C corporation, formation in progress with K&L Gates LLP.
Strategic path	In-Q-Tel — a target the company intends to pursue, not a relationship.
Audience	Close friends, family and angel groups; may combine with the Seed Round (structure set with counsel).
Executed to date	**No SAFE executed; no outside funding raised.**

USE OF FUNDS (OCT-13 DECK, ESTIMATED ALLOCATION — HISTORICAL PROPOSAL)

Line	Purpose	Amount
Entity formation & legal	C-corp + 501(c)(3) setup	$4,000
IP / patent counsel retainer	K&L Gates — provisional filings	$25,000
Founder runway	3 months, full-time	$24,000
Reserve & travel	Investor / advisor meetings	$7,000
Total	**Capital-readiness round**	**$60,000**

As printed on deck slide 11 — a dated proposal. Current allocation: projected along the same four lines, sized at close.

WHAT COUNSEL HAS ESTIMATED — 5 OCTOBER 2026

Counsel's estimates (K&L Gates LLP, 5 October 2026): formation and organizational documents — review of the existing Delaware entity, bylaws, certificate of incorporation, organizational consent and SS-4 — approximately $2,800; a coversheet provisional application $2,000, filed in the inventors' names and assigned to the company on formation; a non-provisional application typically $10,000–$20,000 depending on embodiments and length.

Read against the October deck: the $4,000 entity line covers the formation estimate with margin but not yet the 501(c)(3) application, and the $25,000 IP line covers a coversheet provisional and most of a non-provisional. Neither estimate is an engagement.

THREE-MONTH OBJECTIVES — AND WHAT "DONE" MEANS FOR EACH

#	Objective	What closes it	Today
1	Form both entities and establish the IP strategy with K&L Gates; file initial provisional protection	Delaware certificate and file number for EnergyWave, Inc.; EIN; counsel's formation documents; a coversheet provisional filed in the inventors' names with its application number; 501(c)(3) formation documents.	Formation in progress with K&L Gates LLP
2	Complete the technical review of the Sweet module and define the humanoid power-budget specification	A written characterization plan with pre-registered pass / kill criteria; a power-budget specification for simultaneous human-grade sensing and motion against lithium-ion; both reviewed by the technical principals.	Both drafted; inventor-defined inputs specified at kickoff
3	Define measurable go / no-go criteria and prepare the next round	Gate criteria published to investors before any result; the Seed Round package (amount, milestones, use of funds) sized from the forecast model with every assumption validated by finance.	Drafted; projected sizing from the forecast model v1.2

CAPITAL RAISED TO DATE

No outside debt or equity, no SAFE executed and no outside funding raised (15 October 2026). The October competition entry recorded approximately $10,000 including founder contributions. A competition prize is not capital raised.

WHY A BRIDGE — AND HOW IT RELATES TO THE SEED ROUND

The October materials say "not a seed round", and they are preserved as written. The round may be combined with the Seed Round, with the combined structure set with counsel. The Seed Round is the round the bridge is designed to reach, and it is defined once the entity exists, the first module is reviewed and the criteria are written; its projected sizing is in the Seed Round documents.

Basis: the 13 October 2026 deck and one-pager; counsel's estimates of 5 October 2026; the founder's statements of 15 October 2026.
