Energy Wave

CONFIDENTIAL — FORECAST — FOR DISCUSSION

Who is applying, and what the evidence establishes about them.

Entity by entity, fact by fact, with the scope of each.

Defense reviewers ask four things before they read a word of technology: who is the applicant, who owns and controls it, what has it done before, and what is it registered as. This page answers each, with its evidence, and states what is planned where a registration or formation step is still ahead.

1 · THE ENTITIES, AND THE ROLE OF EACH

Entity	Role	Facts
McLean Capital Development LLC Wyoming · Filing ID 2025-001612265	Applicant of record, xTech Search 10	Filed 12 February 2025; active and in good standing (registry, 8 October 2026); Ian Franklin McLean 100 % member, President, Sole Member (certificate, 23 June 2026). EnergyWave is its project name.
EnergyWave, Inc. Delaware C corporation	Operating company: holds the IP, employs the team, receives the raise; the entity named on the deck	Formation in progress with K&L Gates LLP (October 2026). Intended to qualify as a U.S. small business more than half owned by U.S. citizens for SBIR / STTR purposes.
McLean Companies LLC California	Founder's existing company; letterhead on the August white paper; transitional services	Separate from both entities above; related-party terms to be disclosed.
GovThink Institute 501(c)(3), proposed	Proposed independent policy nonprofit; relationship to the applicant and to EnergyWave, Inc. defined with counsel	Not yet filed; no formal tie to EnergyWave. Proposed safeguards: independent board majority, no preferential access or IP flow. No ownership, control or financial relationship is asserted either way.

2 · ELIGIBILITY FACTS FOR THE APPLICANT LLC

Fact	Value	Evidence or plan
Ownership and control	100 % Ian Franklin McLean	Secretary's certificate, 23 June 2026.
Citizenship basis for the >50 % U.S.-citizen test	Intended to qualify (founder, 5 October 2026)	Stated to counsel; documented at formation.
Employees	4 (as entered)	Founder-entered figure for the competition profile.
Prior DoW / DoD business	**No**	The LLC has held no DoD contract or award (founder, 9 October 2026); the profile was corrected accordingly.
Capital raised	No outside debt or equity; no SAFE executed; no outside funding raised (15 October 2026)	The October competition entry recorded approximately $10,000 including founder contributions.

Fact	Value	Evidence or plan
Overlapping federal support	None	No award or application record; an NSF Project Pitch was drafted in September 2026.
SAM.gov / UEI / CAGE	Registration planned on formation	None is required for xTech entry; a CAGE code is required for prize payment; SAM registration follows the formed entity, EIN, physical address and bank account.
Physical operating location	Planned: Irvine, California, near UC Irvine and the National Fuel Cell Research Center	Mailing address: P.O. Box 8646, Newport Beach, CA 92658. Site and lease to be negotiated.
IP ownership of the proposed work	Assigned to EnergyWave, Inc. on formation	A coversheet provisional in the inventors' names, assigned to the company on formation (counsel, 5 October 2026); prior third-party agreements under counsel's review.

3 · PROTECTION POSTURE

The Compartmentalization and Anti-Tamper Posture memo (v0.1, 12 Sept 2026) in this folder sets, before there is anything to protect, how know-how and any future hardware would be compartmentalized: knowledge partitioned into imageable / process / state bins; a tamper-responsive "paperweight" kill; post-quantum platform binding; split manufacturing; information compartmentalization; and the legal posture questions for counsel. It uses DoDD 5200.47E and DoDI 5200.39 vocabulary deliberately and claims no device. Its §8 questions are unanswered; v0.2 follows counsel's answers.

4 · NAMING

"Department of War" is used in the company's narrative documents. Any field that must match a government form or portal uses the agency name exactly as that form shows it.

Basis: the Wyoming registry and secretary's certificate; the founder's messages to counsel of 5 October 2026; the approved competition corrections of 9 October 2026; the September 2026 federal on-ramp note; the Compartmentalization and Anti-Tamper Posture memo v0.1; the founder's statements of 15–16 October 2026.
